

To make the curriculum more relevant to the job market three courses will be added: two seminar classes (PHY 1090 and 3930, one credit each) and a computational physics course (PHZ 3151C, 4 credits)

The full CAMPEP¹ accreditation of the PSMMP program expires on December 31, 2016. One junior faculty member has already been hired as requested by the accreditation board. In order to have the accreditation
